EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William Lee, Jr. on 08 February 2005.

The application has been amended as follows:

In the CLAIMS:

Claim 1, line 7, before the word "separate", the phrase —in a press—has been inserted.

Claim 1, line 11, in step (d), after the phrase "controlling the", the words —step of—has been inserted.

This application is in condition for allowance except for the presence of claims 9-18 drawn to an invention non-elected without traverse. Accordingly, claims 9-18 have been cancelled.

The following is an examiner's statement of reasons for allowance: it is deemed novel and unobvious over the prior art of record to so perform a method applying a relief decoration to a portion of the surface of solid extruded elongate member by pre-heating using a pre-heater having first heating means, applying the decoration by pressing in a

heated mold having a second heating means, measuring a structural defect and generating a measurement signal, and controlling the step of pre-heating in response to the measurement signal to eliminate or diminish the defect in subsequent elongate members.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
